Year constructed	1983 – hull number is 83150
Sail number	14
Berths	4
Length overall	22'
Length water line	18' 1.5"
Hull type	Grp – bilge
Displacement	2750 lbs
Rig	Junk
Engine	Outboard 4hp 2 stroke Mercury sailpower long shaft with charging facility. Serviced Sept '17 Also installed but not working (for me anyway!) is a Lombardini 6hp water cooled diesel. This can be removed if not wanted
Fuel tank	See note below
Instruments	All new NASA Log, wind, depth,
Safety equipment	Anchor (warp and chain), Horseshoe buoy
Cooker	Origo 2 burner spirit stove
Water tank	2 plumbed in 5 gallon tanks. Can be removed for ease of filling
Cushions	New when the boat was bought by me in 2015. There is slight staining from leaks in the roof (all cured now)
General	Whilst not perfect she is in pretty good shape and has been out of the water for the last three winters. This vessel has been refitted for my own use and not simply for sale for sale. She has a virtually new Scanes sail with jointed battens, all rigging is less than 2 years old and little used. Most blocks were new a year ago and are roller/ball bearing. New LED masthead tricolour. Painted top and bottom last year. I have a fuel tank which has been removed to allow the replacement of the outboard. I also have a Vire 7hp 2 stroke engine purchased before I bought the diesel, available by separate negotiation. Saildrive by ZF. New tinted windows have been fitted and the Houdini hatch professionally rebuilt The interior needs a little work, the main cabin has been lined in foam backed plastic. The forecabin has not but both have insulated roof panels
Other	Substantial winter frame and cover Galvanised 4 wheeled trailer available by separate negotiation. VGC. Boat outboard and trailer can all be sold separately but only in this order.
